# 10-Point Container Inspection Checklist

The following container inspection checklist <u>MUST</u> be completed on <u>ALL Full Container Loads</u> (FCLs) being exported to the United States and returned to ICAT Logistics.

1. Roof

2. Right Side

3. Left Side

4. Front Wall

5. Outside Undercarriage

6. Outside of Doors
(including locking mechanism and hinges)

7. Inside of Doors
(including locking mechanism and hinges)

8. Inside Floor

9. Signs of Pests or Agricultural Contaminates
(i.e., insects, animals, mold, mildew)

10. Refrigeration Units
(fans, vents, and mechanics)

Examples of Acceptable High Security Seals

A high security seal (compliant with PAS ISO 17712) **MUST** be used to seal the container. Seals must be stored in a secure area, and once used to seal a container, the seal number **MUST** be documented on the shipment paperwork.

10-Point Container Inspection Checklist

Container Inspection Checklist:

Container #: _____

Seal #: _____

Company: _____ Date: _____

☐ Yes ☐ No 1. Are the container door locks working?

☐ Yes ☐ No 2. Is the front wall of the container in good condition?

☐ Yes ☐ No 3. Is the left side of the container in good condition?

☐ Yes ☐ No 4. Is the right side of the container in good condition?

☐ Yes ☐ No 5. Is the ceiling of the container in good condition?

☐ Yes ☐ No 6. Are the insides of the container doors in good condition?

☐ Yes ☐ No 7. Are the outsides of the container doors in good condition?

☐ Yes ☐ No 8. Is the undercarriage of the container in good condition?

☐ Yes ☐ No 9. Are there any signs of pests or agricultural contaminates? (bugs, animals, mold, mildew, etc.)

☐ Yes ☐ No 10. ***Refrigerated Containers only** –Are all vents, fans, and refrigeration units clear of pests or agricultural contaminates?

Any compromised seals at origin are to be reported <u>immediately</u> to Customs and Border Protection or to your local Customs authorities.

Any sign of pests or agricultural infestation requires that the container and/or its contents be decontaminated prior to shipping. Notify ICAT immediately so the necessary steps can be taken.

** ICAT requires that you notify U.S. Customs or the foreign customs authority if unauthorized persons enter the container during the loading process. You must also notify ICAT Logistics immediately. Upon notification that the container has been compromised, ICAT will immediately instruct the steamship line to hold the container and ICAT will notify Customs and Border Protection.

Printed Name of Person Performing Inspection: _____

Signature of Person Performing Inspection: _____

Name of Person Who Affixed Seal: _____
