Any compromised seals at origin are to be reported immediately to Customs and Border Protection or to your local Customs authorities.

Any sign of pests or agricultural infestation requires that the trailer and/or its contents be decontaminated prior to shipping. Notify ICAT immediately so the necessary steps can be taken.

**** ICAT requires that you notify U.S. Customs or the foreign customs authority if unauthorized persons enter the trailer during the loading process. You must also notify ICAT Logistics immediately. Upon notification that the trailer has been compromised, ICAT will immediately instruct the steamship line to hold the trailer and ICAT will notify Customs and Border Protection.**
