Business Development Agent Program

READY TO BE YOUR OWN BOSS?

ICAT Business Development Agent

ICAT's commitment to supporting independent professionals in the field extends to our Business Development Agent Program. We designed this program for a myriad of individuals who are looking to:

- Move away from owning or managing a full-scale operation
- Build up business before committing the resources to starting an agency
- Focus on building business relationships and closing deals
- Grow their current business through a trusted partnership
- Maximize their income with no cap on earning potential

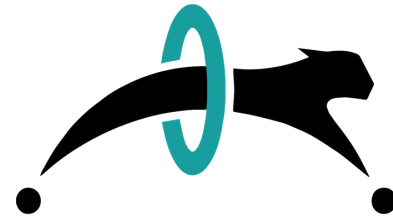

How do you benefit as a Business Development Agent?

- Complete flexibility in how you spend your time
- Collaborative culture and environment
- Helpful tools and resources at your fingertips
- Sole focus on sales and your book of business
- Entrepreneurial approach and mindset
- **No cap on your earning potential**
- **No administrative responsibilities**
- **No personnel issues**

Through our "we're not growing if you're not growing" philosophy, we give you the freedom to focus on growth and quality of life while maximizing earning potential.

We understand you can't build business relationships if you're sitting in meetings or behind a computer moving freight. That's why we take care of the operational and customer service support so you can focus on building and maintaining your business.
